

Kubera Lakshmi Pooja

When Kubera went to Kailasam once to have a darshan of Lord Shiva, he found Him with Goddess Parvathi. Kubera was stunned to see the splendour and beauty of Goddess Parvathi. He felt sorry that he had not worshipped such a fine goddess for so long and one of his eyes shut itself.

Goddess Parvathi got annoyed that Kubera was winking at Her, and looking at Her with evil intention. She made his eye burst. Kubera lost sight in one eye and was also cursed that he would always look ugly. Lord Kubera pleaded with Lord Siva to forgive him and explained that he had not seen the Goddess with any evil intention. Lord Siva left the choice to His consort. Goddess Parvathi forgave Kubera and let the eye grow back, but it was smaller than the other one. So one eye of Kubera is smaller than the other. Kubera was rewarded by Lord Siva with the post of being one of the guards of the eight directions - the North. The Goddess made him the lord of wealth and material.
